SAGEEP 2018 Silent Auction

I recently attended the Association of Engineering and Environmental Geologists Annual Meeting held in Colorado Springs, CO from September 12th through September 16th. In the exhibit hall, the AEG Foundation held a silent auction chock full of donations of interest to virtually every geoscientist and non-geoscientist. There were classic geological reports, antique geologic maps, rock and mineral specimens, semi-precious gem stones, and bottles of wine. It seems that a supporter purchased a favorite vintage to give away as a reward for a generous donation to the AEG Foundation. It occurred to me as I viewed the tables chock full of interesting items, that EEGS should strive to “up its game” for the SAGEEP 2018 Silent Auction.

The SAGEEP is only 5.5 months away!. Now is the time to commit to contribute to the SAGEEP Silent Auction. *Take Action Today* by e-mailing Doug Laymon at doug@collierconsulting.com to share your heartfelt desire to support the EEGS Foundation through the gift of an auction-able item. To be clear, it does not have to a piece of geophysical equipment although that would be a grand and very welcome donation.

A special note for US taxpayers: The EEGS Foundation is a non-profit organization as defined by the Internal Revenue Service. Thus, the fair market value of your donations is deductible from your federal income tax in the tax year that you donate the item or cash.

The Student Event

The EEGS Foundation traditionally sponsors ***The Student Event*** at the SAGEEP to demonstrate support for the EEGS mission by encouraging interaction between those at the start of their careers with those with years of experience applying geophysics to engineering and environmental problems. Transforming the application of near surface geophysical technology into a sustainable business model requires a sustained investment in the young folks coming into the profession. They will be the professional practitioners and industry leaders in the years that lie ahead. Supporting the SAGEEP Student Event fosters professional relationships and collaborations that will ensure the continued growth of the profession as well as good geophysical science.

Show your support for ***The Student Event*** by making a financial gift to the EEGS Foundation today!

Support the EEGS Foundation through a Cash Donation

If you are an EEGS member or even if you are not an EEGS member, please support the EEGS Foundation through a tax deductible (for US taxpayers) cash donation. A typical amount an individual is \$50. EEGS Corporate members typically provide an annual gift of \$2500.00. Of course, giving a larger amount is quite acceptable and very much appreciated. Please keep in mind that you are able to designate your donation to go towards the EEGS Foundation Student Event Fund, the Richard J. Wold Memorial Scholarship Fund, or the EEGS Foundation General Fund.

If you wish to make a donation via check, please mail it to the following address:

**EEGS Foundation
1720 South Bellaire, Suite 110
Denver, CO 80222-4303**

If you wish to make a donation via a credit card, please call the EEGS business office at **303.531.7517**. For more information, visit <http://www.eegsfoundation.org/>.

A donation to the EEGS Foundation will help ***Guide Technologies Today*** as well as ***Prepare for A World of Needs Tomorrow***. Thank you for your support.

EEGS Foundation Board of Directors (December, 2016)

Dennis Mills	Exploration Instruments	dmills@expins.com	President
Doug Laymon	Collier Consulting	doug@collierconsulting.com	Treasurer
John Clark	Corona Resources, Inc.	jclark@coronares.com	Secretary
